

I am a working single mother.

I can't afford to pay the deductible for the health care my children deserve.

I AM COMMUNITY HEALTH FUND

But my story doesn't stop there.

**COMMUNITY
HEALTH FUND**

Thirteen clinics. One community.

Community Health Fund is there for my family.

I am a registered nurse and a single mom. I know the importance of providing high quality health care to my children.

I AM COMMUNITY HEALTH FUND.

I can't keep up with the out-of-pocket costs of my health care plan.

Community Health Fund's network of community clinics provides my family with care we can rely on. *Keeping my kids healthy is my top priority.*

The Twin Cities needs people like you to support Community Health Fund so that families like mine can be part of a healthy community.

Choose Community Health Fund during your workplace giving campaign.

WE ARE ALL COMMUNITY HEALTH FUND.

Last year, support *from people like you* helped Community Health Fund's 13 member clinics to:

- Provide more than 179,000 families and individuals in the Twin Cities with the health care they need
- Save the Twin Cities over \$272 million in health care costs

You can make a difference in your community by making Community Health Fund part of your workplace giving campaign:

- \$8 / month provides one hour of health care education and outreach to families in need
- \$10 / month provides a developmental screening tests to a child
- \$24 / month provides a preventative health visit for a family member in need

I had to decide between food and my medications.

I AM COMMUNITY HEALTH FUND

Without my health, I couldn't get a job.

But my story doesn't end there.

**COMMUNITY
HEALTH FUND**

Thirteen clinics. One community.

Community Health Fund was there when I needed it.

I finished the long trip from L.A. to St. Paul on a promise of a job that fell through. Without work, I couldn't afford both my medications and food.

I AM COMMUNITY HEALTH FUND.

I walked in the door looking for health care. I found so much more. My clinician, Dawn, helped address my health concerns and connected me to programs for food, housing and job training.

Now, I have place to live and a job. I can afford my medication.
I am healthy and doing well.

The Twin Cities needs people like you to support Community Health Fund so that people like me can be part of a healthy community.
